November 26-27, 2020**

**1st International Scientific Conference
Interdisciplinary dimension of health**

26-27 November 2020

Warsaw College of Health and Engineering

Health is inseparable from human life and is one of its fundamental values. However, health is not something permanent, given once and for all, it is rather a process of struggling with the threats that threaten it, having its source both in the biological phenomena of the organism and in the surrounding environment of life. Not without significance is the globalization process that affects every area of life, carrying on the one hand opportunities and, on the other, threats to the functioning of the modern world, also in the sphere of health security. Therefore, aspects concerning health issues in the individual, social and economic dimension acquire new meaning. Cause the individual's health translates into the health of the society. In turn, its level depends, inter alia, on economic development and the well-being of the state.

It is impossible to deny that human life and health, as values inseparably connected with each other, need special protection. This requires taking actions aimed at maintaining health as well as solving problems related to illness, invalidity and disability. Therefore, protection of human life and health is comes to securing its rights in legislation, which among others includes the need to create a legal basis guaranteeing everyone access to health services and the safety of providing these benefits.

Attempts to solve health complexities from the point of view of only one science will not bring positive results. Therefore, it is necessary to include representatives of all scientific disciplines (among others medics, biologists, pharmacologists, physiotherapists, psychologists, lawyers, as well as representatives of public administration) in research on broadly understood health protection. Meets these expectations Warsaw College of Health and Engineering by organizing the conference "Interdisciplinary dimension of health", which will help consolidate the environment of people dealing with these issues as part of their research or professional activity.

The aim of the conference is therefore to create an open and creative discussion combined with the presentation of the results of research and scientific achievements and knowledge, observations and experiences presented by representatives of various scientific disciplines in the context of mutual interdependencies related to care for human health.

The main areas of the conference mainly concern the following issues:

1. Health - theory and medical practice
2. Social dimension of health
3. Legal protection of human health

4. Service and product management in the area of health
5. Threats to public health - yesterday and today

It is obvious that the indicated issues concretize, but do not exhaust the subject of the conference, which is also a place conducive to establishing scientific cooperation in the interdisciplinary sphere aimed at maintaining and improving health as a universal value.

Scientific Council

Chairwoman: Monika Sadowska, MD, WSiIZ in Warsaw

Agata Wolska, MD, WSiIZ in Warsaw

Joanna Klonowska, Ph.D., WSiIZ in Warsaw

Sebastian Grzyb, D.Sc., WSiIZ in Warsaw

dr hab. Mirosław Karpiuk, prof. UWM

dr hab. Wojciech Lis, prof. KUL

Organizing committee:

Chairwoman: Monika Sadowska, MD: e-mail: msadowska@wsiiz.pl,

Secretary for administration and organization of conferences [registration of speakers, verification of applications, abstracts]: Piotr Ozimek [e-mail: nauka@wsiiz.pl, tel. 22 662 24 26],

Secretary for service of conference participants [registration and service of listeners and accommodation of speakers]: Oktawia Romanowska [e-mail: nauka@wsiiz.pl, tel. 22 856 70 77],

Conference secretariat

nauka@wsiiz.pl

tel. (22) 662 24 26

ORGANIZATIONAL INFORMATION

Registration

Applications for participation in the conference should be sent via electronic form available on the website:

<https://wsiiz.pl/konferencje-naukowe/interdyscyplinary-wymiar-zdrowia>

The abstract of the speech can be prepared in Polish, English or Russian, taking into account the following guidelines:

- Times New Roman font, font size: 12,
- single spacing between lines of text,
- the title should be centered and written in bold,
- under the title, please indicate the name and surname of the author and the e-mail address,
- the full names of the establishments should be indicated under the author's data

Abstract of experimental work: please specify the parts and give them subheadings, written in bold type: specify the purpose of the work, methodology, present the results and conclusions. Keywords in Polish and English (3-5 keywords). The volume of the summary should not exceed the A4 page.

Abstract of the review work: there is no need to specify subheadings. The abstract should specify why the given issues deserve a presentation and what are the new achievements in the cognitive or functional aspect in the field of the subject. Keywords in Polish and English (3-5 keywords). The volume of the summary should not exceed the A4 page.

Please send the abstract in the form of a Word and pdf file to the address:

nauka@wsiiz.pl

The deadline for submitting applications expires on:

January 31, 2020 r.

The deadline for the acceptance of applications:

February 5, 2020 r.

Deadline for the presentation of the conference program:

February 28, 2020r.

Conference language: Polish, English and Russian.

The time of speech in an oral session is 15 minutes.

The deadline for sending texts for publication:

February 29, 2020r.

The papers presented during the conference, after obtaining a positive review, will be published in a collective monograph.

Conference Packages

- Listener - 35 PLN / day
- Listener - 70 PLN / 2 days
- Speaker without accommodation - 350 PLN / 2 days [the price includes conference materials, coffee breaks]

- Authors of texts without speech - PLN 250

Payments should be made to a bank account

ALIOR 05 2490 0005 0000 4530 6050 7331

until **January 31, 2020.**

The title should be entered:

Name and surname / Interdisciplinary dimension of health

**Please send payment confirmation electronically
to the address: nauka@wsiiz.pl**

Place of conference:

Warsaw College of Health and Engineering

Bitwy Warszawskiej 1920 r. No. 18

02-366 Warsaw

On behalf of the Scientific Council

Monika Sadowska, MD
